BOOK SYNOPSIS

A Campaign for Call of Cthulhu The Silver Twilight is a secretive, international order dedicated to the destruction of the human race. As brave investigators, you must piece together passages from esoteric books, shards of strange artifacts and puzzling letters to discover the Silver Twilights loathsome goals. Shadows of Yog-Sothoth is a modestly-sized campaign of seven scenarios. During the course of play the investigators penetrate the outer layers of a secret sinister occult organization led by the lords of the Silver Twilight. Beginning in Boston they investigate an organization in New York, run afoul of a coven in Scotland, roam the desert of the American southwest, vacation off the coast of Maine, and explore the mysteries of the South Pacific. In addition to the campaign, this book includes two bonus scenarios. The People of the Monolith introduces the mysteries of the Cthulhu Mythos, and no harm can come to the investigators except through insanity. As such, is perfect for introducing new players to the wonders of Call of Cthulhu. The other bonus scenario, The Warren, presents an unsettling challenge for even experienced players. Originally published in 1982, this new edition includes modified episode scene changes, player-handouts guide for the keeper, and new illustrations and diagrams. It is 144 pages, perfect-bound, illustrated with an index.
